

# NOTICE OF STUDY COMMENCEMENT

## Highway 28 and Peterborough County Road 4 Intersection Improvements (WP 4048-12-01), Detail Design

### THE STUDY

The **Ministry of Transportation (MTO)** has retained **WSP Canada Inc.**, to complete the Detail Design and Class EA Study for the intersection improvements in the Township of Douro Dummer, County of Peterborough. The project involves the following components:

- New traffic signals;
- Dedicated southbound right turn lane;
- Eastbound and westbound left turn lanes;
- Improvements to the existing northbound and southbound left turn lanes;
- Widening of Highway 28 between Peterborough County Road (PCR) 4 and PCR 8 to accommodate fully developed left turn lanes between the two intersections;
- Drainage improvements including general grading of ditches and culvert replacement/extensions; and
- Utility relocation.

A project website at [www.HWY28PCR4intersection.com](http://www.HWY28PCR4intersection.com) will be established by July 19th, 2017, to present findings and provide stakeholders with an opportunity to review and comment on the proposed detail design.

### THE PROCESS

This project is following the approved environmental planning process for Group "B" undertakings under the Ministry of Transportation's *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities (2000)*, with the opportunity for public input throughout the project.

The preliminary design was documented in a Transportation Environmental Study Report (TESR), which was made available for public review from January 5th to February 6th 2017 and received environmental clearance in May 2017.

Near completion of the detail design, a Design and Construction Report (DCR) will be prepared to document the Class EA process followed, including a description of the Recommended Plan, potential environmental effects and mitigation plan, and will be filed for a 30-day public review period. A Notice of DCR Submission will be published in local newspapers at that time to explain the review process and identify locations where the DCR can be reviewed.

### COMMENTS

If you wish to obtain additional information or provide comments, please contact the Consultant Project Manager or MTO Project Manager listed below, or visit the project website at [www.HWY28PCR4intersection.com](http://www.HWY28PCR4intersection.com). You are encouraged to contact us by **August 18, 2017**.
